

# SLENDERPANE

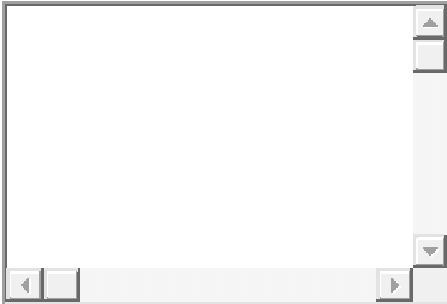

QUALITY HERITAGE SLIMLINE GLASS SOLUTIONS

## Glazing Quote – TRADE ONLY

Please complete the form as carefully as possible so that we can respond quickly.

### Your Reference

### Please specify approx. quantity and sizes (required)

### Thickness

(This is the make up e.g. 4/4/4: inner and outer pane 4mm, no low E spacer 4mm giving overall thickness of 12mm.)

10mm Can't be toughened. Can't have low "E" glass so very poor "U" value. NOT RECOMMENDED

11mm - Can only be toughened one side.

14mm – **RECOMMENDED**

10mm  11mm  12mm  14mm  16mm

## Glass Type

Softcoat Low E - Excellent "U" value. Recommended to achieve the lowest "U" value.

No Low E - NOT RECOMMENDED

**Softcoat Low E**  **No Low E**

## Spacer Colour

(Black/White - 6,7,8,9 & 11mm / Grey Spacer (only 9 & 11 mm).

Black is **RECOMMENDED**. It gives a good shadow line on slim units.

White is more expensive.

**Black**  **White**  **Grey**

## Sightlines

(What you see on the face of the unit, where the glass sits on the rebate. Rebate needs to be 1.5mm larger than the sightline.)

6mm - One year guarantee on toughened.

6mm - 3 year guarantee on annealed.

7mm - 10 year guarantee on annealed and toughened. Black recommended. White more expensive.

8mm - 10 year guarantee on annealed and toughened. Black recommended. White more expensive.

9mm - 10 year guarantee on annealed and toughened. Less expensive version of white.

11mm - 10 year guarantee on annealed and toughened.

**6 Toughened**  **6 Annealed**  **7**  **8**  **9**  **11**  **Other**

## Gas

Argon Gas - Will give a very poor "U" value in a slim unit. NOT RECOMMENDED. OK for thicker units 20mm+

Krypton Gas - Good "U" value and economic **RECOMMENDED**

No Gas - Will give very poor "U" value. NOT RECOMMENDED

**Krypton**  **Argon**  **No Gas**

## Toughened Glass

Toughened glass is more expensive than annealed and, due to the toughening process is renowned for problems of warping, scratches and imperfections. The delivery period for toughened is longer than for annealed units.

**SAFETY MARKINGS - Toughened units require safety markings. This can be a KITE MARK which is placed in a corner, not necessarily the same corner or a LINE LOGO which runs along the edge and is hardly visible. We can also provide a certificate.**

It is well worth only ordering toughened strictly when it is needed to reduce costs. (Please give us a call for guidance).

**Toughened**  **Non Toughened**

**Delivery or Collection**

**Delivery**  **Collection**

**Company Address** (required)

**Delivery Address - if different**

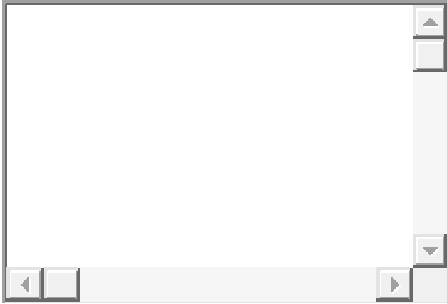

**Contact Name** (required)

**Contact No.** (required)

**Company Name** (required)

**Email** (required)

**Any Special Requirements**

A large, empty rectangular text area with a thin border. On the right side, there is a vertical scroll bar with a small upward-pointing arrow at the top and a downward-pointing arrow at the bottom. At the bottom left corner, there are two small square buttons with left and right arrows. At the bottom right corner, there is a small square button with a downward-pointing arrow.

For non-account customers payment of the deposit is required prior to production. Payment details will be issued on your quote. Please include Quote Number when making payment, if possible.
